**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

I chose Sonic as my internet provider for several reasons. I use their DSL service, and their fiber is not available to me yet. Here is why:

- * Better customer service. The world is full of terrible stories about Comcast or AT&T failing to provide the services that people pay for, giving people the runaround, etc.
- * Employs local folks. Sonic is based in the Bay Area and employs people from the Bay Area.
- * They support Net Neutrality, which is to say, they have committed to not charging more for me to visit certain sites
- * They have a superior privacy policy to their competition, based on data they collect about me.

I can also say that I have had more than ten friends tell me that they wish that Sonic were available in their area, and that they, as consumers, wish that they had competition or alternatives.

I am a registered voter and US Citizen, living in San Francisco, CA.
